

iQon Labels Template

- Bleed
- Trim
- - - Type Safety

PRINTING INKS:

- CYAN
- MAGENTA
- YELLOW
- BLACK

TARGET TO:

Indicate here if there are any PMS colours to be used

When setting up your file please ensure:

- All fonts are outlined
- All links have been embedded or provided in a separate folder as jpegs, tiffs or flat psds
- All logos are in vector format
- All links are CMYK and are 300 dpi or higher
- If colour matching is necessary please indicate which PMS colours to match to in the box to the left, if there are no PMS colours used, delete the "Target to" box
- Files have been made in Adobe Illustrator
- Artwork has a 0.125" bleed on all sides—bleed has been indicated on the dieline with a magenta line
- For best results, keep all type within the type safety—indicated on the dieline with a blue dashed line
- Please provide a low-resolution pdf file for reference along with all working files

Sending Files:

For files 15 Mb and under, email zipped files to Heather@dispenser-amenities.com
